SAVANNA

Inspired by the patterns, textures and colours of African artisal crafts, Savanna is truly outdoor and indoor ready. With a look and feel of linen, a rating of 30,000 Martindale rubs, excellent lightfastness and a water repellent finish, these fabrics can handle the rigours of outdoor use. They are equally at home indoors with their soft hand & stylish designs. This collection is washable and Oeko-tex certified.

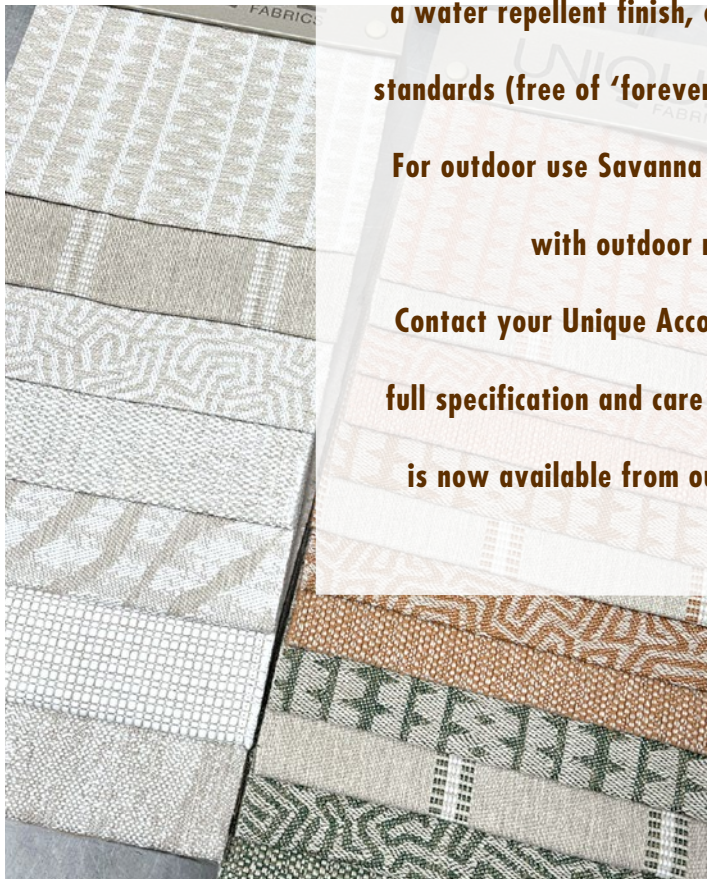

The Savanna collection is expertly woven by a fourth-generation family-owned mill in Belgium. The yarn is a high quality solution-dyed polypropylene, where the colour is an intrinsic part of the yarn, added at the very beginning of the manufacturing process.

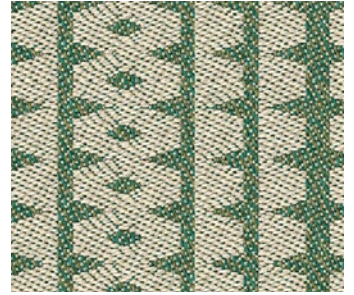

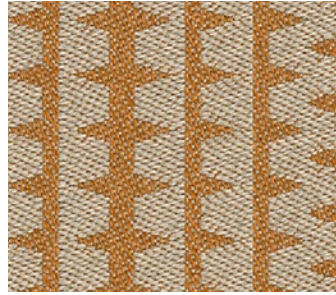

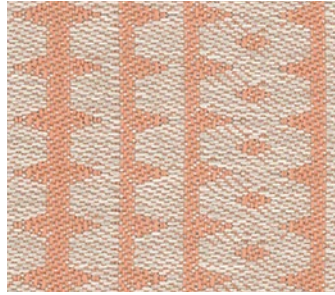

These designs have a certified colourfastness rating of 7, a UV stability of 1500h, are anti-microbial and have

a water repellent finish, complying with stringent EU standards (free of 'forever' chemicals & nanoparticles).

For outdoor use Savanna must be used in conjunction with outdoor reticulated foam.

Contact your Unique Account Manager for Savanna's full specification and care code information. Sampling is now available from our showrooms and Agents.

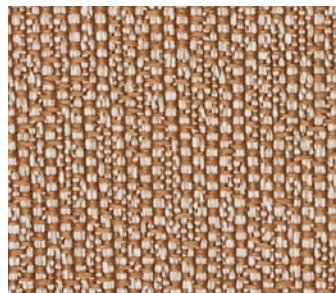

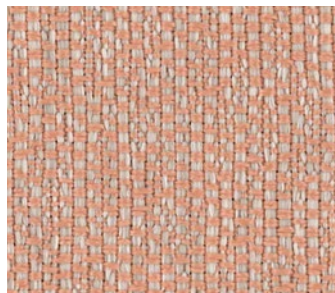

NOTCH - A design is based on the triangular motifs from handcrafted baskets, ceramics & wood carvings.

SAVANNA STRIPE - A classic, railroaded stripe. Stripes are created with a textural, contrasting weave.

AMAZE - This design is our contemporary take on traditional Kuba patterns.

PLATEAU - A textured plain.

ZEBRANO - A contemporary zebra pattern.
